

Immunisation Policy

At **Longwood School and Nursery**, we expect that children are vaccinated in accordance with the government's health policy and their age. We follow the NDNA guidance factsheet. We ask that parents inform us if their children are not vaccinated so that we can manage any risks to their own children or other children/staff/parents in the best way possible. The nursery manager/head teacher must be made aware of any children who are not vaccinated within Longwood in accordance with their age.

We make all parents aware that some children at Longwood may not be vaccinated, due to their age, medical reasons or parental choice. Longwood does not discriminate against children who have not received their immunisations and will not disclose individual details to other parents. However, we will share the risks of infection if children have not had immunisations and ask parents to sign a disclaimer.

We record, or encourage parents to record, information about immunisations on children's registration documents and must be kept updated about this information as and when necessary, including when each child reaches the age for the appropriate immunisations.

Emergency information

We keep emergency information for every child. We require parents to update Longwood when their child reaches each stage of their immunisation programme. This is the responsibility of the parents. Longwood cannot be held accountable for out-of-date information.
